

2021 Lawn Care Program

Our program will consist of 6 granular treatments along with liquid weed control. Each application is season specific and they are scheduled approximately 6 weeks apart. The program also comes with complimentary service visits, between scheduled applications, as requested.

Round 1 – Crabgrass Control with Fertilizer - Dimension 0.15% + fertilizer. Provides 'pre-emergence' control of crabgrass and can also provide 'early post-emergence' control of crabgrass during early stages. (3.23 – 5.18)

Round 2 – Turf Fertilizer with Lime trace minerals - 18-0-6 powered by AMP-XC. Premium fertilizer combined blended with protein hydrolysates and humic acids to increase plants ability to absorb macronutrients.

Round 3 – Grub Control with Fertilizer - 17-0-3 3% Fe with MALLET – Lambda. Professional grade, slow release fertilizer that controls insects ABOVE and BELOW the ground.

Round 4 – Turf Fertilizer – Nutrite 20-0-5 w/ 3% Fe. Strong fertilizer with Fe (iron). Helps the lawn handle the summer stress during this time period.

Round 5 – Turf Fertilizer with Lime trace minerals - 18-0-6 powered by AMP-XC. Premium fertilizer combined blended with protein hydrolysates and humic acids to increase plants ability to absorb macronutrients.

Round 6 – Turf Fertilizer - 21-0-21. Applied late in the season and designed to help lawns store more food for winter survival, also encourages rapid growth and rooting in the spring.

Great Care offers lawn care programs, tree and shrub programs, tick and mosquito applications, aerations, thatchings and seeding. We will also provide specialized treatments that may be specific to your lawn, including, but not limited to fungicides and insect controls
